

*Clinical Research Nursing:
Incorporating Professional Scope and Standards to
Advance the Coordination and Care of Research Participants*

Renaissance Providence Downtown Hotel
Providence, Rhode Island USA

Final Program

2017 IACRN 9th Annual Conference

Pre-Conference - October 18, 2017

Conference - October 19-20, 2017

www.iacrn.org
412-343-2235

Dear Friends and Colleagues,

Welcome to IACRN's 9th Annual Conference! I open this meeting with great enthusiasm for the progress we have made implementing the *Clinical Research Nursing Scope and Standards for Practice*. It is befitting that this year's theme centers on this accomplishment!

The Conference Planning Committee has worked diligently to develop an enriching program of expert speakers and IACRN members. It is with deep appreciation that I acknowledge their efforts. Please take the opportunity to network during the conference, make note of areas for improvement and respond to the conference evaluation so we can continue to provide a high quality conference that meets your professional development needs.

IACRN's membership is its greatest asset. As IACRN makes strides to advance clinical research nursing practice globally there is a place for each member to contribute, I encourage you to become involved. During our Annual Business Meeting you will hear important updates from the Board and Committee Chairs. Please join a committee in the coming year and support IACRN as we continue to grow!

Thank you for choosing to attend this meeting, I look forward to learning and networking with you in the coming days.

Sincerely,

Margaret McCabe

Margaret McCabe, PhD, RN
President, IACRN

IACRN Board of Directors & Officers

President

Margaret McCabe, PhD, RN

"Enhancing clinical research quality and safety through specialized nursing practice."

Continuing Nursing Education Information

Disclosures to Participants

This continuing nursing education activity was approved by the Oncology Nursing Society, an accredited approver by the American Nurses Credentialing Center's COA.

Successful Completion of this Continuing Nursing Education (CNE) Activity

In order to receive contact-hour credit for this CNE activity, you must:

- Check in at the registration desk; obtain a name badge and registration packet.
- Attend at least 80% of the session you wish to receive CNE credit.
- Complete an electronic evaluation for the conference which will be sent to you by October 27th and will need to be completed by **November 10, 2017**.
- The number of CNE credits you receive will be based on the sessions you attended in entirety as self-reported on the evaluation.
- Your CNE certificate will be sent via email after the total hours have been calculated. If you have completed the evaluation and have not received a certificate by December 1st, please contact Debbie@iacrn.org.

Conflict of Interest

A conflict of interest occurs when an individual has an opportunity to affect educational content about health-care products or services of a commercial company with which she/he has a financial relationship. The planning committee members and conference presenters have disclosed whether any relevant professional, personal, or financial relations related to the planning or implementation of this CNE activity exists. To our best knowledge, no conflicts of interest exist for this conference.

Non-Endorsement of Products

Approval of this CNE activity refers only to the continuing nursing education activity and does not imply a real or implied endorsement by the International Association of Clinical Research Nurses, ONS, or the American Nurses Credentialing Center (ANCC) of any commercial product, service, or company referred to or displayed in conjunction with this activity, nor any company subsidizing costs related to this activity.

Non-Commercial Support

IACRN received financial support from The Rockefeller University Hospital Heilbrunn Family Center for Research Nursing, Boston Children's Hospital, Dana-Farber Cancer Institute, Cerner, Jazz Pharmaceuticals, MedStar Health Research Institute, Memorial Sloan Kettering Cancer Center, Harvard Catalyst, Ohio State University Master's Program in Applied Clinical and Preclinical Research, UW Health and Yale University as sponsors and/or exhibitors at this conference. This sponsorship does not imply a real or implied endorsement of any product, service, or company referred to in this activity nor of any company subsidizing costs related to the activity.

Instructions for Poll Everywhere

There are a few sessions this year that will use an automated response system. We will be using Poll Everywhere. There are 3 options for responding which are listed below:

Respond using the Polleverywhere app (preferred option):

- Select "I'm participating", then add the username: debbiezaparo694
- You can then select your response

Text response (for US phones):

- Start a new message
- Text debbiezaparo694 to 22333 to join once
- Once you receive a reply, you can then text your response once poll appears on the slide

Respond via the webpage (suggested for non-US phones):

- Visit pollev.com/debbiezaparo694
- Wait for the poll to appear, and respond with a click

Wednesday, October 18, 2017 Pre-Conference

7:00am - 6:00pm **Registration** (*Symphony Foyer/Ballroom Level*)

11:30am - 12:30pm **Lunch** (*on your own*)

8:00am - 4:00pm **Track 1—The CRN as Study Coordinator: Overview of Responsibilities** (*Mozart Room/Mezzanine Level*)

Elizabeth Ness, MS, BSN, RN, National Cancer Institute
Brian Beardslee, MSN, RN, Dana-Farber Cancer Institute
Deborah Grady, MS, RN, CCRC, National Cancer Institute

Clinical Research Nurses (CRNs) have many roles within the clinical research enterprise. One role is that of the study coordinator. The CRN study coordinator's (CRNSC) role is multi-faceted and may vary based on the clinical research setting. As a member of the research team, the CRNSC ensures: adherence to the ethical standards for clinical and research care, protocol compliance, integrity of the informed consent process, appropriate management of clinical research participants, management of source and essential documents, integrity of the research data, and appropriate financial stewardship. This all-day Pre-Conference workshop will provide an overview of these various responsibilities of a novice (<2 years CRNSC). The responsibilities of the CRN study coordinator will be woven throughout these important topics.

8:00am - 4:00pm **Track 2** (*Handel Room/Temple Level*)

Ethical and Regulatory Considerations in the Genomic Era (8:00am - 11:30am)

Kathleen Calzone, PhD, RN, AGN-BC, FAAN, National Cancer Institute
Georgie Cusack, MS, RN, AOCNS, National Heart Lung Blood Institute
Sharon Flynn, MS, RN, ANP-BC, AOCNS, BMTCN, National Institutes of Health

Elucidating the role of genomic variation in health, disease risk, illness, and treatment response has the potential to revolutionize the scope of information generated from clinical research. Genomic science and technologies influence the entire healthcare continuum and are fundamental components of research. This presentation explores the fundamentals of genomics impact on conducting research including the regulatory considerations.

Leadership Development: Are You Up for the Challenge? (12:30pm - 4:00pm)

Georgie Cusack, MS, RN, AOCNS, National Heart Lung Blood Institute
Sharon Flynn, MS, RN, ANP-BC, AOCNS, BMTCN, National Institutes of Health

This Pre-Conference session will utilize several tools to describe leadership development concepts and competencies. Clinical Research Nurses (CRNs) will receive training on the creation of a mission and vision statement and an individual leadership development plan. Tools for self-assessment of leadership style and emotional intelligence will aid them in identifying their personal leadership strengths and limitations. CRNs will be provided information on the essential components of collaboration and teamwork including professional communication, problem-solving techniques, and the basics of leading a meeting. The ability to assess the professional climate and influence change will assist in strategic planning for future growth of the organization. Finally, CRNs will be taught how to develop an action plan and select a mentor. Leadership development and mentorship of CRNs at all levels within the specialty strengthen coalitions and support organizational goals.

8:00am - 4:00pm **Track 3—The Art of Advocacy: Putting CRN Scope and Standards into Action in your Institution** (*Beethoven Room/Mezzanine Level*)

Shaunagh Browning, MSN, RN, FNP-BC, Georgetown University
Alec J. Stone, MA, MPA, Oncology Nursing Society
Lauren Inouye, MPP, RN, American Association of Colleges of Nursing

The Scope and Standards of Practice for Clinical Research Nurses was approved by the ANA in August 2016. The publication of the Scope and Standards was the first step in providing a tool for Clinical Research Nurses to “guide specialty nurses in the application of their professional knowledge, skills, and responsibilities (ANA, 2016)”. The challenge now lies in application of this document in local settings where CRNs practice. Nurses have been ranked the most trusted profession in the Nation for the 15th year in a row (ANA, 2016). Nurses work hard to advocate for patients, but it is not clear they have the necessary skills to advocate effectively for their own practice issues (Tomajan, 2012). This pre-conference will introduce CRNs to political competency and basic advocacy skills that can be applied to their practice settings to affect policy change. Empowering nurses to have critical conversations in an effective manner will help disseminate the important role of the CRN. Using the Scope and Standards as a foundation, talking points and tools will be developed for use in role play at the pre-conference and for use in the CRNs practice setting. Expanding on these advocacy concepts will also provide the skills to have similar conversations at the governmental level, both locally and nationally.

4:45pm - 5:45pm **Informational Sessions**

Chapter Governance <i>(Mozart Room/Mezzanine Level)</i> <i>Jonathan Roland, MS, BSN, RN</i>	Membership, Marketing & Communications <i>(Handel Room/Temple Level)</i> <i>Georgie Cusack, MS, RN, AOCNS</i>	How to Write a Position Statement <i>(Beethoven Room/Mezzanine Level)</i> <i>Margaret McCabe, PhD, RN</i>
